---- Please note that everything below will be part of an anonymous review process. ----

ECIU@TUHH micro module	
Title of the micromodule/course that will open up (as on first page)	
Start date – end date	
Please state 2-3 intended learning goals	
Description of teaching and learning concept with ECIU@TUHH micromodule. <i>(max. 2500 characters including spaces)</i>	
<i>Please address the following key points: overall concept, activating methods with student-centred learning, multidisciplinary and international situation, study format combining synchronous and asynchronous phases, examination and evaluation concept.</i>	

Budget proposal (max. 500 characters including spaces)

Add a brief but specified budget proposal for what you are planning to spend the funding for. The funds represent **seed funding** and may not be sufficient to cover all incurred costs. The provided funds can be used e.g. to cover **course-related material costs, course-related travel costs for TUHH staff** or the **hiring and training of student tutors**. Please note that the budget is available only for TUHH personnel and activities. It **cannot** be used to fund staff costs of other ECIU universities or external partners. It is not a lump sum proposal (you get funded what you are applied for to a maximum of 3.000 €)

Are you planning to implement this together with another ECIU university or an external partner?

Please, describe the nature of the cooperation here and note that the funds may only be spent on TUHH costs.

Please note:

- Since learners from ECIU partner are not able to join studIP or ILIAS from TUHH other tools must be used for data up-/download, communication and collaboration. ECIU@TUHH team will help you to identify tools or grant access to ECIU IT-System as Microsoft Teams, Miro or Padlet that could be used to conduct the course.
- So far, the examination is only planned with “pass or fail” option. In case you ‘ll have learners who will need a grade, ZLL would be happy to assist you in redesigning/adopting the assessment.

Award criteria can be found on ECIU@TUHH website:
